

The UVS control provides maximum performance and efficiency for chip removal operations.

*Add a UVS Ecologic Control for increased conveyor performance!*

Systems equipped with a UVS Ecologic Control can save energy, decrease conveyor wear, and reduce coolant carryout.

## OPTIONS

- OEM or field retrofit
- 8-pin I/O connection
- Common voltage options:
  - 0.5HP - 1.5HP, 110V 1Ø 50/60Hz (230V 3Ø Output)
  - 0.5HP - 25HP, 208/230V 3Ø 50/60Hz
  - 1HP - 50HP, 400/460V 3Ø 50/60Hz

## DIMENSIONS

- 6.5" L x 6.5" W x 9.25" H

## APPLICATIONS

The UVS Ecologic Control is applicable to almost any Jorgensen conveyor system.

## BENEFITS

- Variable speeds:
  - Minimize conveyor wear
  - Save energy
  - Reduce coolant carryout
- Multiple power source options
- Ability to interface with the machine tool with optional I/O connection
- IP66-rated enclosure for indoor and outdoor use
- Easy operator interface
- Timer setting - on/off cycles to reduce coolant carryout
- Jam Manager® - automated program to clear minor jams for reduced machine downtime
- Load monitoring to protect conveyor components from torque spikes that could occur during a jam

*\*Jam Manager® function available on all power inputs and HP options*
