

Quotation RFQ for: ALL OTHER THAN METAL CUTTING MACHINE TOOL CHIP APPLICATION

Date: _____ JCI Lead # _____ JCI Quote # _____

Customer Company Name: _____

Address: _____ City: _____ State: _____ Zip: _____

Contact Name: _____ Contact Title: _____

Office Phone: _____ Ext: _____ Mobile: _____

Fax: _____ Email: _____

Customer Type: End User Machine Tool Dealer Machine Tool Builder Industrial Distributor/Reseller

Source of RFQ Data: JCI JCI Rep Customer

Information obtained by Web Phone In-Plant Other _____

JCI Rep Involved in Project Rep Name: _____ JCI Rep # _____

If the customer being quoted is either a machine tool dealer, machine tool builder, or an industrial distributor/re-seller please provide the end user customer information if available.

End User Company Name: _____

Address: _____ City: _____ State: _____ Zip: _____

Contact Name: _____ Mobile: _____

Office Phone: _____ Email: _____

This application is for parts being made in which of the following industries? Other _____

Automotive Aerospace Oil/Gas/Energy Medical Device Construction Equipment

Are we required to follow any defined customer mechanical or electrical specifications?

Yes No If Yes, Please provide the most recent revision of the customer specification.

Are there industry standards to be followed

UL CE ANSI CSA Other _____

Is the conveyor to be exported outside of the USA? Yes No

Is an existing conveyor being replaced? Yes No

If yes, is the existing brand Jorgensen Yes No Jorgensen S/N _____

If another brand please specify _____

What is the machine tool brand name for which you need the conveyor? _____

What is the machine tool model designation? _____

What is the machine tool serial number? _____

Machine tool asset designation? _____

What competitors are quoting? _____

Likelihood of Jorgensen getting the order? _____

Approved Project? Yes No Project Budget & Amount Approved _____

Decision will be made in 00-30 Days 30-60 Days 60-120 Days Over 120 Days

If this is to replace an existing conveyor why are you replacing it

Can't Handle Coolant Flow Can't Handle Product Volume Material Being Cut Changed
Tracking Worn Conveyor Jamming Conveyor Leaking Requires Filtration System Worn Out

What type of manufacturing is this for

Casting Forgings Stamping Heat treating Quenching Cooling Extruding
Packaging Automation Inspection Assembly Sorting Laser
Other _____

Parts Handling

Pieces per hour _____ Weight of each piece _____
Minimum/Maximum dimensions including thickness _____
Description of material composition _____
Temperature of part when introduced to conveyor _____
Free fall height of parts entering conveyor _____
Is part finish/integrity critical?
Yes No If yes, explain _____
Any other important information on the parts? _____
**Please provide representative samples of the parts and/or pictures*

Scrap Handling

What are the minimum and maximum _____
dimensions including thickness? _____
What is the weight per cubic foot of scrap? _____
What is the total weight per hour of scrap? _____
Description of the _____
material composition _____
What is the temperature of the scrap when introduced to the conveyor? _____
What is the free fall height of the scrap as it enters the conveyor _____
Volume of scrap _____ Cubic Yards every _____ Hours
**Please provide representative samples of the parts and/or pictures*

Will conveyor be handling any coolant? Yes No If yes, what kind?

Water with rust inhibitor Water soluble Semi synthetic Synthetic Oil

**If possible, include MSDS sheet and/or Brand and Type* _____

Will the conveyor be exposed to any other kind of fluid, oil, etc..? (example: Draw oils on stamped parts)

Yes No If yes, please describe _____

Electrical Requirements

Motor/Control to be wired for 200/60Hz 3Ph 208/60Hz 3Ph 230/60Hz 3Ph 460/60Hz 3Ph

Other Voltage Frequency Phase _____

Control Required Yes No If Yes, what type UVS Ecologic Drum Switch E-Stop Other

Control - Other All components wired to a J Box with terminal strip
All components wired to a J Box, including motor starters, overloads, disconnects,
operator elements and pilot lights (control logic by others)

Full control including logic and standard machine interface

Other, please describe _____

Power cable required from control to machine? Yes No If yes, what length _____ inches

Plug required on cable Yes No If yes, what type _____

Are we required to follow any electrical standards? Yes No

If yes, Which ones NEMA CE CSA Other _____

Electrical Components and Functionality

Tank Level Sensors

Analog

Digital

Float with proximity switch

Float with proximity switch and flag

Operator Panel

HMI Display

Status pilot lights

Stack light

E-Stop

Control Interface

System On/Off

E-Stop

Pre-warning

Alarm

Supply pump on/off

Are we replacing an existing conveyor system Yes No If yes: _____ motor HP _____ Motor FLA

Is the existing conveyor motor shaft mounted? Yes No If yes, describe overload protection:

VFD (Variable Frequency Drive)

Current Sensor

Shear Pin

Options

Fans for cooling

Manual chain lubrication

Automatic chain lubrication

Part gates/dividers

Special discharge chutes

Other. Please describe _____

Paint Color/Paint Specification

Primer only What color primer? _____

If finished coat is desired, please
provide detailed specifications _____

If you have a paint RAL# please provide* _____

*provide a sample paint chip if possible

Critical Dimensions (please feel free to submit any photos, sketches or drawings that may be helpful)

Conveyor is Floor Mounted Machine Mounted Tank Mounted Pit Mounted

Conveyor Dimensions Inches Feet mm

A. Load Section		F. Conveyor Width		K. Machine Opening Height.	
B. Casing Height		G. Overall Length		L. Tail to Leg	
C. Discharge Height		H. Height Above Floor		M. Floor to Leg Brace	
D. Discharge Length		I. Incline Angle		N. Leg to Discharge	
E. Pit Depth		J. Machine Opening Width			

Does conveyor lower curve sit inside/outside of coolant tank. Inside Outside

Is coolant tank to be supplied Yes No _____

If yes, please supply dimensions. _____

Conveyor drainage: Does the conveyor require a drain coupling or coolant holes/slots?

Yes No If yes, please explain _____

Notes:
